## Charity festival Supporting Refugees & Migrants in Japan

There are now nearly three million migrants or people with foreign backgrounds living in Japan.

Some of these foreign residents living in Japan were forced to flee from conflict and persecution in search of a safer life.

How well do we know about these people?

This charity festival offers various opportunities for supporting refugees and migrants by offering donations for foods, goods, and services, and for participating in workshops to learn about their backgrounds.

There will be dried fish flakes from Myanmar, traditional cloth bags from Congo, Chilean cuisine, manicure services (nail care and polish), talks and music by refugees and migrants.

Please join us as we get to know each other and have some fun!

The activities of Refugees & Migrants Festival Executive Committee is made up of all the cooperation of as a volunteer or donations.
